<b>Operations Impacts (If N/A, please give a brief description as to why):</b> A regionalized 911 communications center can have several positive impacts, including: <ul style="list-style-type: none"> <li>• Improved efficiency: By consolidating resources and expertise into a single location, a regionalized 911 communications center can improve the efficiency of emergency response operations. A regional center provides more effective communication between agencies, and better coordination of resources.</li> <li>• Enhanced interoperability: A regionalized 911 communications center can facilitate better collaboration and interoperability between different agencies and jurisdictions, including law, fire, and EMS agencies. This can help to ensure that emergency responders are better able to work together to respond to complex emergencies and natural disasters.</li> <li>• Consistent service quality: By establishing standardized procedures and protocols, a regionalized 911 communications center can help to ensure consistent service quality across different agencies and jurisdictions. This can help to reduce the risk of errors, improve the accuracy of information, and ensure that emergency responders are better able to provide effective assistance to those in need.</li> <li>• Increased public safety: Ultimately, the goal of a regionalized 911 communications center is to improve public safety and ensure that emergency services are able to respond quickly and effectively to emergencies. By consolidating resources and expertise, a regionalized center</li> </ul>	

can help to ensure that emergency responders are better equipped to handle a wide range of emergencies, from wildland fires, mass casualty incidents, and complex rescues.

What impacts would the proposal have on historically excluded communities?

The impact of 911 and emergency communications on historically excluded communities varies depending on socioeconomic status, race, ethnicity, language, culture, and geographic location.

Specifically:

- Unequal access to emergency services: Historically excluded communities, such as low-income neighborhoods, rural areas, and communities of color, may have limited emergency services due to a lack of funding, infrastructure, and staffing. This can result in longer response times, delayed medical care, and higher mortality and morbidity rates.
- Language barriers: Many historically excluded communities may not speak English as their primary language, making communicating with emergency dispatchers and responders challenging. This can lead to misunderstandings, delays in response times, and potentially life-threatening situations.
- Cultural differences can impact how people perceive and respond to emergencies. For example, some communities may have different beliefs about the role of emergency services and may be more likely to seek help from family or community members first. This can create challenges for emergency responders who may need to navigate complex cultural norms and expectations.
- Implicit biases: Emergency dispatchers and responders may have implicit biases that impact how they respond to calls from historically excluded communities. For example, they may assume certain neighborhoods or individuals are more dangerous or less deserving of resources. This can lead to differential treatment and outcomes for different communities.
- Trauma and mistrust: Historically excluded communities may have experienced trauma and discrimination from law enforcement and emergency services in the past, which can lead to mistrust and fear. This can create a barrier to seeking help in emergencies and can make it more difficult for emergency services to build trust and relationships with these communities.

How will data be collected, analyzed, and reported concerning the effect of the program/policy by racial, ethnic, gender identity, national origin, income level, disability, sexual orientation, or other existing disparities?

Information involving incident data is collected and stored as required by law.

How will data be collected regarding the effectiveness of this program, policy or product to ensure it is the right solution?

Clinical and accreditation-required performance measures are collected and evaluated by policy.

Describe how this proposal aligns with current City Policies, including the Comprehensive Plan, Sustainability Action Plan, Capital Improvement Program, Neighborhood Master Plans, Council Resolutions, and others?

If a Fire Units self-initiated activity creates the need for specialized equipment or specialized units, dispatch will notify and attempt to send the appropriate personnel and apparatus. They must have knowledge of these units and their capabilities as outlined above for citizen initiated (911) calls for service. Dispatch will notify command if unable to fill request.

Dispatchers are expected to be technologically sound in all facets of our Computer Aided Dispatch System.

## **CONSUMER DISCLOSURE**

From time to time, SHI International Corp OBO City of Spokane (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign, Inc. (DocuSign) electronic signing system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

### **Getting paper copies**

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after signing session and, if you elect to create a DocuSign signer account, you may access them for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

### **Withdrawing your consent**

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

### **Consequences of changing your mind**

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of a DocuSign envelope instead of signing it. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

### **All notices and disclosures will be sent to you electronically**

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures

electronically from us.
